

PLACING THE BAG CORRECTLY

Do not place under trees or power lines.

The bag has to be within 4 meters from where the truck can park.

You can place your bag in the garage, however we may need to drag the bag closer to the truck.

We can lift a bag over a fence if the fence is no higher than 1.8m.

We need a height clearance of at least 5 meters so we can extend our crane without hitting anything.

SO WHAT CAN I PUT IN MY PURPOSE BAG?
