

# GENERAL WASTE DISPOSABLE BAG 3M<sup>3</sup>

**WEIGHT ALLOWANCE 750KG LIMIT**

Any excess weight is charged at 20 cents per kilogram. If your Purpose Bag is overloaded, we may not be able to collect it. To help you stay within your weight allowance, keep heavy materials to a minimum and keep at the bottom of your bag. For example concrete, soil, bricks, stones, rubble.

## PLACING THE BAG CORRECTLY

- Do not place under trees or power lines
- The bag has to be within 4 meters from where the truck can park.
- You can place your bag in the garage, however we may need to drag the bag closer to the truck.
- We can lift a bag over a fence if the fence is no higher than 1.8m
- We need a height clearance of at least 5 meters so we can extend our crane without hitting anything.
- We need the drive way to be at least 3m wide. So the truck can drive onto the property

## INSTRUCTIONS

- Make sure you place the bag correctly before filling it. (See above)
- Fold all corners down to give the bag some stability and fold up as you fill the bag.
- Place heavy material at the bottom of the bag to max 30cm.
- Do not overfill your bag
- Only place acceptable material in the bag.
- After filling the bag please contact us for collection.
